FROM : [redacted] Director, Office of Global Issues

SUBJECT : Versailles Summit: Revised Draft Presidential Briefing Papers

1. We have passed our comments on the attached revised briefing papers directly to the Department of Energy. Most of the suggestions we made in April already have been incorporated into these drafts. [redacted]

2. Concerning the nuclear energy brief (page 11), we again indicated that our records show only 50 nuclear reactors have been cancelled in the US since 1978. Others, however, have been delayed or postponed. DOE has agreed to revise the first sentence in the Essential Facts section accordingly. [redacted]
